#### **REPORT OF THE FACULY SENATE CHAIRPERSON (Dr. Hawkins)**

Dr. Timothy Hawkins introduced himself as the new chair of Faculty Senate. He stated that it is a pleasure to represent the dedicated faculty of ISU who have chosen to devote their careers to educating their students, serving their community, and advancing knowledge.

Dr. Hawkins is looking forward to working with the board on behalf of faculty governance toward achieving the goals set for the university. He added that the Faculty Senate has built a very positive working relationship with the Administration of President Bradley and the Board of Trustees over the past few years, and he expects that to continue.

Dr. Hawkins asked the board to consider ways to continue the outreach that began last year with the Senate. The Executive Committee had a productive meeting with a number of trustees this past spring. He encouraged the trustees to find ways to meet with the entire Senate body over the course of this upcoming academic year.

#### **REPORT OF THE STAFF COUNCIL CHAIRPERSON (Ms. Torrence)**

Ms. Torrence reported that two ISU staff members were recognized at the Council's Annual Meeting in May. Michelle Lewis of HMSU-Operations received the Sycamore Staff Award which recognizes a staff member who contributes to the overall mission and success of Indiana State University through his/her attitude, service, and engagement. The Debbie Nelson Staff Council Spirit Award honoree was Barry Overpeck of the Controller's Office. Wil Downs, Teresa Exline, and Diann McKee served as the selection committee for this award.

Staff Council scholarships have been awarded to Pam Chamberlain, Kelly Anthony, Cory Burger, Theresa Ortega, and Rhonda Beecroft. Rachel Keyes is the recipient of the John and Jacqueline Phillips Memorial Scholarship. A recognition ceremony for all recipients will be in October.

The Public Relations Committee started the year off with a photo booth at the Welcome Back picnic. All of the pictures can be found on the Staff Council webpage. Ms. Torrence reported that the remaining standing committees are also off to a good start on their goals for the year.

### **REPORT OF THE PRESIDENT OF THE STUDENT GOVERNMENT ASSOCIATION (Mr. Velazquez)**

Andy Velazquez introduced himself as the student government association president. Mr. Velazquez indicated he looks forward to getting to know many of the staff and board of trustees and is extremely excited to represent ISU's students this year.

### **REPORT OF THE ISU FOUNDATION PRESIDENT (Mr. Carpenter)**

Mr. Carpenter was unable to attend and provided a written overview of Foundation and Alumni activities.

### **REPORT OF THE UNIVERSITY PRESIDENT (Dr. Bradley)**

President Bradley stated that it is great to have the students back on campus and hoped everyone had a wonderful summer. It was a productive time for many campus leaders as work on the new strategic plan, "There's More to Blue" continued. The plan will be announced at the President's fall address to campus on September 21 with implementation to begin immediately following.

President Bradley introduced the new executive director of strategic initiatives who will be working with him in facilitating the implementation of the new plan. Monica Love comes to ISU from Tulane University where she served as deputy chief of staff and as an associate director of athletics and the senior women's administrator for athletics. Prior to working at Tulane, she served as associate director of athletics at the U.S. Military Academy at West Point and as assistant director of athletics for compliance and enforcement at Baylor University. Monica has a bachelor's in business administration from Drake University, an MBA from Tulane and a Juris Doctorate from the University of Iowa.

President Bradley congratulated Tracy Osborne and everyone involved in the welcome week activities including the outstanding orientation leaders, and staff from residential life, information technology, student affairs, public safety, University College, and other offices throughout campus as well as the more than 700 students who volunteered to help.

Congratulations also goes to Nancy Rogers, Heather Miklozek, Jessica Starr and the entire Center for Community Engagement team for a record-breaking Donaghy Day. There were 1,936 students who participated in service projects across three different counties. President Bradley thanked the dozens of faculty and staff members who volunteered to oversee these activities.

President Bradley announced that the official enrollment numbers won't be available until the fifth day of classes. Coming off of last fall's record numbers, it appears that enrollment will be stable this year.

The President indicated the groundbreaking for the \$64 million expansion and renovation of the Health and Human Services Building, the largest state-funded construction project in ISU's history, took place earlier in the day. President Bradley thanked Sen. Luke Kenley for providing comments at the ceremony and Congressman Larry Buschon, State Senator Jon Ford, State Representatives Bob Heaton, Clyde Kersey and Alan Morrison and Mayor Duke Bennett for participating as well. He remarked that the new facility will fill a critical need for additional

classroom and laboratory space for ISU's growing health related fields. This project will also feed into the redevelopment of the Third Street/Chestnut Street corridor as the main entryway to campus.

The trustees' agenda includes a request to approve the transfer of the ICON building, located at 1 Sycamore Street, to the City of Terre Haute Redevelopment Commission for future development. Core Redevelopment is interested in converting the site into apartments which would be a great boost to the Riverscape redevelopment efforts and would save the university the significant costs of tearing the building down.

The President also mentioned that the trustees were able to tour the newly remodeled 7<sup>th</sup> floor of the Hulman Memorial Student Union. The remodeled space includes the Multi-cultural Services and Programs area and the LGBT Student Resource Center, La Casita Student Resource Center, Women's Resource Center, and International Student Resource Center. This is part of Vice President Willie Banks' efforts to expand services to students.

President Bradley called upon Vice President Banks to introduce two new staff members. Brice Yates, the new director of the African American Cultural Center, and Amanda Hobson, assistant dean of students and director of the Women's Resource Center, were introduced.

President Bradley then called upon Vice President Nancy Rogers to introduce the new executive director of Career Services, Bryan Lubic.

The president noted that the University's Sesquicentennial Celebration is continuing. A list of events was provided to the trustees.

#### **REPORT OF THE BOARD CHAIRPERSON (Mr. Campbell)**

Trustee Campbell reported that the President's Evaluation went very well. He indicated that the trustees recognize that Indiana State has had an incredible year. He noted improvements in retention and graduation rates, the renovation of Normal Hall, the kickoff of the Sesquicentennial Era, the continued upgrading of student housing, the new Health and Human Services Building expansion and renovation, and the national recognition the university continues to receive for community engagement.

He indicated that the board is incredibly proud of everything that the President has accomplished and recognizes that this work has not been done by the President alone, and required hard work on behalf of everyone.

Trustee Campbell indicated that there is more work to do. He shared the goals the board had discussed for the President for the current academic year including paying particular attention to enrollment, student success, government relations, affordability, fundraising and donor stewardship, the continued remodeling of Sycamore Towers, the Health and Human Services project and continuing to work with the partners in the City, County and Convention and Visitors Bureau to advance the Hulman Center project. He added that all of the goals and work of the trustees, administration, faculty and staff needs to be in alignment with the goals of the new "There's More to Blue" strategic plan, including aligning the promotion and tenure guidelines with the priorities in the strategic plan.

## 5b4 Transfer of Property

The Indiana State University Foundation gifted to the University real estate located at 1 Sycamore Street in December 2009 to serve as a new site for future athletic facilities. This property is west of the main campus and borders the Wabash River. The site also has a large industrial-type building originally constructed by the American Can Company in 1923 and used by various industrial successors over the years, the last being ICON, the name by which the building is known. Although the University's new track and field facility was constructed nearby, there are no current plans for University use of the ICON building.

After careful consideration of potential uses for the structure including a proposal from CORE Redevelopment, LLC., the University recommends transferring the real estate and improvements at 1 Sycamore Street to the City of Terre Haute Redevelopment Commission for future development (in accordance with I.C. 21-36-3-7). As part of the transfer, the University will retain approval rights for any design plans or future use of the property. We anticipate that the Redevelopment Commission will work with CORE Redevelopment, LLC to convert the site to commercial real estate uses. For that reason, we also recommend granting a permanent easement to CORE Redevelopment, LLC for the design, construction, maintenance, and operation of surface parking at the site. The designated parking location would be 500 North 1st Street on property conveyed by CSX to the University.

The transfer is subject to operating standards and covenants that will run with the property. Any owner of the property will be bound to observe those standards and covenants.

**Recommendation:** Authorize the Treasurer of the University to execute all documents required to transfer the real estate and improvements (i.e. building) located at 1 Sycamore Street to the City of Terre Haute Redevelopment Commission subject to operating standards and covenants and the granting of a permanent easement for surface parking at 500 North 1<sup>st</sup> Street upon property closing with CSX Real Property, Inc. Transfer of property and easement is contingent upon selected developer securing necessary financing.

**Mr. Taylor reported that the Finance Committee unanimously recommends the approval of the item as presented. The board voted to approve the item as presented.**

## 5d Reactivated Program, Guidance and Psychological Services: Specialization Counselor Education PhD

The Department of Communication Disorders, Counseling, School, and Educational Psychology and the Bayh College of Education proposal to add a specialization of Counselor Education to the existing Ph.D. in Guidance and Psychological Services.

The following information supports the addition of the program:

- As of July 31, 2013, the Council for Accreditation of Counseling and Related Educational Programs (CACREP) requires Counseling faculty members to hold a Ph.D. in Counselor Education in order to teach in CACREP-accredited doctoral programs.
- As of January 1, 2014, all *new* Counseling faculty positions **must** be filled by an individual with a Ph.D. in Counselor Education to maintain accreditation of their Master's level programs counselor training programs.
- The National Board for Certified Counselors (NBCC) recently passed rules requiring graduation from a CACREP-accredited master's program to be allowed to sit for the National Counselor Examination (NCE). This has tremendous significance in that many states use the NCE as their state-level licensure examination. This change in Master's-level accreditation and licensing requirements further increases the need for CACREP accredited doctoral programs to meet the growing need for CACREP master's-level programs.

These changes in policy (along with others not presented here) will vastly increase the demand for Clinical Mental Health Counselors and Counselor Educators across the country. An additional factor is the expected retirement of many current counselor education faculty over the next several years. Currently, there are no Counselor Educator Ph.D. programs in Indiana.

**RECOMMENDATION:** That the **Guidance and Psychological Services: Specialization Counselor Education Ph.D.**, in the College of Education, be approved effective Fall 2017.

**On a motion by Mrs. Smith, seconded by Mr. Taylor, the recommendation was approved.**

## 5e New Program, Middle School Science Minor

There is a critical need for science teachers in middle schools, both in Indiana and throughout the United States. This minor is designed for Elementary Education or Secondary Education majors who want to add a middle school science licensure to their initial teaching licensure. This minor will provide the community with more middle science teachers. Furthermore, students who choose to add this second licensure will benefit from having a broader range of career opportunities as well as extra content for their resume.

Elementary Education and Secondary Education majors can enroll in this program.

The proposal has been reviewed by the Science Education Advisory committee. The Science Education Advisory Committee agreed that the required courses in the Middle School Science Minor cover all IN core science standards for grades 5 -8.

This minor, in conjunction with an education major, and the appropriate state licensure tests will qualify students to teach middle school science. This minor cannot be used as an initial instructional license. Without a teaching license, this alone will not satisfy requirements for teaching science in middle schools. Students who complete the middle school science

minor in conjunction with an Elementary Education or Secondary Education major will have satisfied the Foundational Studies requirements in Laboratory Sciences.

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

**RECOMMENDATION:** That the new program, Middle School Science Minor, be approved effective Fall 2017.

**On a motion by Mr. Pease, seconded by Mr. Minas, the recommendation was approved.**

## 5f Proposed Modification Program Specific Fees<sup>1</sup>

### Effective for the Fall Semester 2016

The Board has in the past approved both special fees tied to courses and fees that are program related, such as with the Doctor of Physical Therapy. The program fees were proposed and approved by the Board of Trustees as per semester fees; in the case of the DPT the approved program fee was \$1000/semester. At the time program fees were approved and implemented, we had no way in our current system to assess a program fee. We were (and still are) only able to assess special fees at the course level. Therefore, when program fees were approved, they were tied to specific courses (1 each semester) in order to charge students. The courses were included as part of the board recommendations (I.e. Program fee tied to these courses). Unfortunately, when the curriculum changes, those courses may be moved or eliminated which might result in students being assessed no program fee one semester or double or triple the program fee in another semester. We seek board approval that all initial per term program fees approved by the Board supersede the specific course numbers used to assess the program fees and allow us to make adjustments to the courses as necessary to ensure that all program fees are appropriately assessed each term.

**Recommendation:** Approval to allow all program fees to be assigned to courses as needed, effective with Fall 2016 fee assessments, to ensure that all per semester program fees are appropriately assessed.

**On a motion by Mr. Taylor, seconded by Mrs. Bell, the recommendation was approved.**

## 5g Approval of additions to Policy 245 and Policy 246 and Approval of Policy 399

The ISU Faculty Senate has requested approval of additions to Policy 245 Faculty Constitution and Policy 246 Faculty Bylaws and approval of Policy 399 Interpretation of Faculty Handbook Policies. The proposed changes will provide clarification to faculty about the process to request interpretation of policies specifically related to faculty governance and faculty academic responsibilities. The additions of Policy 246.16 and Policy 399 were approved by the Faculty Senate in November, 2016 and the addition of Policy 245.10 was approved by the ISU faculty in January, 2016.

### Proposed Addition of 245.10

**245.10 Interpretation** All questions regarding the Constitution of the Faculty of Indiana State University shall be directed to the Faculty Senate Chairperson. The Faculty Senate Chairperson shall immediately consult the other Senate officers and

the Provost on all such questions of interpretation. Their agreed-upon interpretation shall be communicated to the person or body asking for it and shall be considered the only valid interpretation of these sections.
